

we train the professional developers of the future.

Refugees seeking for employment
More than 30 000 refugees are currently seeking employment

Companies seeking for programmers
3000 vacancies in the Austrian IT industry

refugees {code} is a nonprofit organization offering refugees a free programming education.

Our mission:
Self-determined life through qualified work!

THE TRAINING PROGRAM

Target group
The program is designed for unemployed refugees who live in Vienna and want to work in software development.

Job Opportunities
The aim of the program is to integrate the refugees into the labor market and to help them lead a self-determined life. Part of the training is therefore a three-month internship after the first 6 months.
